

TIDAL WAVE SWEEPS THE OCEAN RED CROSS RELIEF SHIP IN SEAS MOUNTAIN HIGH

STARVING RATS MENACE PEOPLE

SAN FRANCISCO, April 26.—After all the other plagues the residents of this unfortunate city have suffered from have come the rats. Large and small, the Pied Piper of Hamelin never conjured them in the hordes in which they have invaded the unburned sections. Scarcity of food has made them bold and through the hours of the night the populace left with roofs over their heads can hear them gnawing.

Chinatown contributed its thousands and the wholesale district its tens of thousands. While doubtless many perished in the conflagration millions of them kept ahead of the flames and when the fires had burned themselves out the rodents found themselves out in homes of those whose business they formerly had preyed upon in the downtown districts.

What is to be done with them is a matter the residents declare will soon force itself upon the attention of the authorities. Nowhere is any food safe from the famishing army and to be kept with any safety must be stored in metal lined boxes. It is estimated that there are 100 rats to every house left standing and night and day they keep up a relentless search for food. They are gnawing their way in relays and droves through the houses and energetic steps must be taken to rid the city of these pests.

SUBJECTS IN CALL FOR EXTRA SESSION

Among the subjects included in the recognition of the committee to be incorporated in the proposed call for a special session of the legislature are the following:

- The laws relating to lost records.
- Constitutional amendments.
- The calling and guaranteeing of bonds.
- Extension of time to plead matters relating to revenue and taxation, and the remission of penalty on delinquent taxes.
- Relating to school census. This census would be in progress now were it not for the legal holidays.
- The rebuilding of state institutions injured or destroyed by the earthquake.

POWER PLANTS

SAN FRANCISCO, April 26.—All concerns having plants of their own, or three having motors supplied by current from outside sources for operating machinery of all kinds, including elevators, are hereby notified that a permit must be obtained from the Citizens' Committee on Light and Power, with offices at 3150 Fillmore street, before they will be permitted to start up their plants.

PRISONERS COMING

Seventy-five prisoners are to arrive at the Alameda County Jail this afternoon from Alcatraz Island. They are to be brought on a tug. They are prisoners taken out of San Francisco county jail.

DEATH'S GRIP

SAN FRANCISCO, April 26.—The steamer Buckman, of the Alaska-Pacific line, in command of Captain E. B. Wood, arrived here late last night with volunteer physicians, Red Cross nurses and a cargo of 2200 tons of provisions and supplies for the homeless people of this city. The vessel made a record run from Seattle, but encountered a terrific sea off Cape Blanco, which crew and passengers believe was caused by subterranean eruptions, and for a time threatened to engulf the staunch ship on its errand of mercy. A great tidal wave struck the vessel and it was thought all would be lost. It was an awful moment.

The Buckman was sent to San Francisco by the Chambers of Commerce of Seattle and Tacoma to carry relief to this stricken city. A large sum of money was raised by the two northern cities and no ship was ever loaded and put out of a Pacific Coast port in so short a time as was the Buckman.

The vessel sailed from Seattle Sunday night and made fast to the government transport docks last night, where Secretary Sheffield of the Alaska Club of Seattle, who is in charge of the relief ship, immediately turned it over to the military authorities, who have now full charge of the feeding the hungry thousands. The cargo brought by the Buckman was carefully selected and contains milk, canned goods of every variety, meats of all kinds, cereals, even to tobacco, matches and corn-cob pipes. On the way down from Seattle crew and passengers turned to and baked several thousand loaves of bread, so that it would be ready for immediate distribution upon arrival here. The Buckman also brought 3000 blankets and 400 tents, which are greatly needed here.

AWFUL MOMENT.

The loading of the steamer for the relief of the homeless and destitute of this city was one of the quickest on record on this coast. Hundreds of willing hands assisted in getting the ship ready

for her voyage and thousands cheered her as she cast loose the lines. The work of loading the vessel was done by the stevedores of Seattle, who volunteered their services and worked day and night in three shifts.

The Alaska-Pacific Company donated the use of the steamer.

Besides the tons of food which the Buckman had, three physicians and five Red Cross nurses, who have volunteered their services in the camps and hospitals here, were passengers; also two army officers.

Off Cape Blanco yesterday morning the steamer ran into dirty weather and high seas. Off to the west passengers and crew saw a great wall, like a huge tide-rip, of seething, boiling water, running mountain high, approaching at great speed.

THREATENS TO FOUNDER

It struck the ship with terrific force, smashed two of the boats as if they were mere egg shells and tons of water rolled over the decks of the steamer, which quivered from stem to stern and threatened to founder. Captain Wood, his first officer and the chief engineer were swept from their feet.

It was little short of a miracle that they were not washed overboard.

The wall of water had all the appearance of a huge tidal wave and the seas continued running

high until late in the afternoon.

Captain Wood and the passengers are of the opinion that it was caused by some disturbance under the sea. The work of discharging the cargo commenced early this morning.

TEAMS AT WORK.

The relief work has made rapid progress. It is now in the hands of the military authorities and has been perfected and systematized until the feeding of the thousands of hungry and homeless people is going on expeditiously. Five hundred teams are hauling supplies to the sixty odd relief depots today. There is still a scarcity of sugar and coffee and an urgent and pressing need for more blankets, coats and tents owing to the unusual cold nights for this season of the year which now prevail.

CARE OF REFUGEES

SAN FRANCISCO, April 26.—Army surgeons report that the situation of the refugees within the park is excellent and promising. Sufficient bedding has been issued to protect the campers during chilly nights and trenches have been dug to assure dryness as much as possible in event of another rain. The principal district occupied by the refugees is rapidly assuming the appearance of an army camp. With very few exceptions a field stove has been issued to the occupants of every tent. This convenience, coupled with an ample food supply, is in a great measure responsible for this satisfactory situation permeates the park district.

SAN FRANCISCO IS TO REBUILD

SAN FRANCISCO, April 26.—San Francisco is to be rebuilt. From all over the United States have come assurances that capital will swarm in here as quickly as the needs demand. The comparatively little damage done by the earthquake has not shaken the confidence of investors. People are anxious to seize the opportunity which the conditions have made possible. Fire has never discouraged capital in the past, and there is no reason why it should in this case. Moreover, it has been the rich man's fire. Those who have suffered most are the large property-owners, whose fortunes depend upon the rebuilding of the burned district. Arrangements have already been made for carting away the debris and before another month is past, Market street will be lined with temporary structures. The Claus Spreckles building, the De Young building, Shreve building, St. Francis hotel, the Merchants Exchange and many more of the first class structures can be put into shape at comparatively little expense. With these as a nucleus, there is no reason why the retail and wholesale districts of the city should not be re-established in their former locations before a year is past.

TO REBUILD.

Many property owners living abroad have telegraphed their agents here to begin at once their reconstruction of the properties destroyed. A notable instance of this is recounted by Anton Borel who has been instructed by his clients to rebuild the McDonough corner at Clay and Kearny streets. This is in close proximity with the Hall of Justice and is center of the city.

Commissioner Reagan has made a partial inspection of the Hall of Justice and gives as his opinion that at least two of the floors are available for police purposes. If this proves true, the abandonment of the building will be unnecessary and police headquarters will remain where they were. Mr. Borel also has instructions to replace the buildings of his clients in other parts of the city. It is his purpose as well as the other property owners to reconstruct the city on a firmer and better basis than it ever has been before.

In carrying out his purpose the Borel plans will be followed as far as possible.

Joshua Fowell of the firm of Baldwin & Howell has also received instructions to rebuild the properties belonging to the Belden estate and the McDonough Estate Company. The McDonough properties included the California Hotel and other big structures in that district.

SOME LOCATION.

"It is a sentiment of the property owners," says Mr. Howell, "to keep the city in the same location. There has been an effort to direct business to streets further up town, but I do not think that will be accomplished. The retail district will remain as it was close to the wholesale and that must be as near as possible to the docks. The Real Estate Board has taken up this matter seriously and there seems to be a unanimity of opinion."

"I have not given the matter as close attention as I should have done had I not been busily engaged in the relief work. From now on, however, there will be more rapid strides in the direction of permanent and lasting improvements." George Boyd, manager of the Boyd Estate whose interests aggregate more than \$1,000,000 is determined that the buildings destroyed shall be rebuilt. Already he is making arrangements for the reconstruction of the Market street properties. On these buildings, only \$50,000 insurance was carried. If they are not rebuilt, a fortune is lost, therefore, it is of the greatest interest that the city should be re-established where it was before. Mrs. E. R. Barron, who owned the properties at Post and Kearny, where O'Connor & Moffatt was situated, and the gore at Market and Eddy, has instructed her agents, Madison & Burke, to let contracts at once for the erection of two steel structures at these points.

RELIEF FUNDS

LOS ANGELES, April 26.—Through the efforts of the relief committee of the Knights of Columbus in Los Angeles, \$20,000 has been paid in pledged to aid the sufferers in San Francisco, and the movement to raise \$100,000 has been fairly started. This is exclusive of amounts paid to other funds for the purchase of supplies and clothing. More than \$40,000 has already been placed in the hands of Motley H. Flint, its grand master for the State of California, by the various Masonic grand lodges of the country. Honolulu has made two contributions in the past three days, the first of \$4500 and the second \$3000. Maryland has been heard from again with \$5000 and the promise of an equal amount next Wednesday. The other latest contributions, which swell the total to \$45,000, are: Hartford, Conn., \$15,410; Indian Territory, \$10,000; Nebraska, \$500; Trinidad, Colo., \$100; Michigan, \$1000.

OAKLAND TO BE MADE A GREAT SEAPORT

A New Pier to Parallel the Key Route and Great Docks and Wharves to Be Immediately Built.

Tremendous efforts are being put forth by the Realty Syndicate and its affiliated corporations to provide ample shipping facilities on the Oakland water front sufficient to meet not only the ordinary but extraordinary demands. Within sixty days it is expected that facilities will be provided that will take care of all the shipping interests of San Francisco.

It is the aim of the Realty Syndicate and the Key Route ferry and railway system to make Oakland the chief maritime shipping point on the Pacific Coast, and the managers of those corporations are putting forth every exertion and spending money without stint to achieve that end.

The plan outlined embraces the construction of a double pier to the terminus of the Key Route mole, the construction of a bulkhead from the Long wharf of the Southern Pacific Company to the Key Route ferry slip, the filling of the 500 acres lying between the two trestles, and the construction of a slip adjacent to the mole for the docking of the largest vessels that have ever entered San Francisco bay.

Operations are already in progress. Engineers are now busy with plans to carry out one of the most gigantic schemes of improvement ever undertaken on the Pacific slope. Imperative orders have been given to have the improvements completed inside of sixty days.

A new pier parallel to the existing Key Route pier, running out to the ferry slip, will be constructed at once. As it is for the accommodation of freight trains to transport to and from the deep water wharves cargoes of great ocean steamers, the pier will be built in the most substantial manner. Dockage facilities will also

be constructed at the end of the pier to bring ship and car together.

Simultaneously piers will commence operations constructing a bulkhead along the pierhead line from Long wharf to the mole of the Key Route. Dredgers will deepen the water outside of the bulkhead and the material pumped from the bay will be used to fill in the broad acres between the two trestles. This made land is to be utilized as sites for vast warehouses.

The gigantic improvements projected are of incalculable importance to Oakland, for they insure the making of this city a seaport of the first order. When they are completed Oakland will have port facilities unsurpassed on the Pacific Coast, and will be in a position to handle all the ocean commerce coming into the bay, of San Francisco. Unfortunately the port facilities of San Francisco are so badly crippled that many months must elapse before they can be restored to meet the requirements of shippers. The Realty Syndicate and the capitalists associated with its enterprises have undertaken to supply the needed facilities on the Oakland water front, and are now straining every nerve to carry out plans of the greatest magnitude. If men and money can accomplish the result the bay front of this city will be provided with every facility to handle the sea trade centering in San Francisco bay.

RECOVER NINE MORE BODIES

SAN FRANCISCO, April 26.—The coroner's office reports today that nine additional bodies were recovered yesterday. Among the nine two were identified. These were James Poulos and Ah Chung, a Chinese.

The remains have been interred under the direction of Coroner Walsh.

HEALTH BOARD

SAN FRANCISCO, April 26.—The Board of Health reports today that the health conditions of the city are satisfactory now and that each day shows a marked improvement. A less number of contagious disease cases was reported yesterday than for any preceding day of the present week. And in many cases an inspection showed that the report of contagion was erroneous.

The districting of the city for sanitary purposes has proven eminently satisfactory. Temporary repairs of a majority of the sewer systems have been made. Whenever possible the sewers have been flushed and cleaned and where it has not been practicable to make repairs even of a temporary sort, the sewer outlet has been closed.

For several days there has been a shortage of lime. The supply has not now been replenished by the addition of four tons of the disinfectant. This has been sent to the several headquarters of the health stations and is now being distributed throughout the city. There are workmen in plenty. This is particularly true of plumbers. In fact, the board announces today that the department which it controls, needs no more men.

MRS. DELRICHS RAISES FUNDS.

SAN FRANCISCO, April 26.—Ex-Mayor Phelan, chairman of the Citizens' Finance Committee, reported today that the total amount of subscriptions to date was \$4,420,000. Sums, both large and small, continue to flow in from the East.

Among the principal items was \$33,578, raised by Mrs. Herman Delrichs last night in New York by means of a hippodrome. She gave two shows. The gross proceeds will be forwarded to the Citizens' Committee.

Another cheering piece of news was received by Mr. Phelan from New York. It was to the effect that Charles A. Moore, a prominent banker of the nation's metropolis, had agreed, with other prominent New Yorkers, to raise \$500,000.

MANY TENTS FOR DESTITUTE

SAN FRANCISCO, April 26.—Mayor Schmitz announced this morning that within six days there would be 150,000 tents for the homeless. The tents are now en route and will be ready for delivery by next Tuesday.

The homeless are faring very well at the present time but the tents will be of great service in housing not only those who are homeless now but also the great army of laborers who will soon be at work rebuilding San Francisco.

HUNTERS' POINT FOR CELESTIALS

SAN FRANCISCO, April 26.—The Six Companies, the Chinese concern controlling the destiny of Chinese throughout the United States, has agreed to adopt Hunter's Point as the site for rebuilding Chinatown. This was announced at the meeting of the Citizens' Committee this morning.

It was thought that the Chinese merchants having leases and the property owners themselves might object to the removal of Chinatown, but with the approval of the Six Companies there will be little difficulty in colonizing the celestials.

Temporary quarters will be established on North Beach where all of the Chinese will be concentrated before they are sent to Hunter's Point. Oakland's floating population of Chinese will be invited to North Beach also.

INSURANCE MEN MEET

A largely attended meeting of the fire underwriters was held at Reed's Hall this morning. Numerous telegrams and cablegrams were read from the east and Europe, informing the resident managers that representatives of their companies were on the way here. Many of these requested that great care be exercised in opening the vaults and safes with a view of preserving the records.

It was evident from the statements made by those present, many of whom had interviewed experts, that it would not be prudent to open vaults or safes for possibly two weeks or more.

It was suggested that, as soon as possible, the companies would establish a common headquarters in San Francisco for the convenience of all claimants, so as to avoid the necessity of their coming to Oakland.

At these headquarters the numerous adjusters of the companies will be found. But the offices of many of the companies for the transaction of their coast business outside of San Francisco will remain here for some time. Letters were read from the insurance commissioners of Washington and Oregon expressing their sympathy and offering to aid the companies in any way they could.

It was plainly evident that a more confident feeling exists among the managers, and that they are determined to assist the policy holders in every way possible.

DELMONICO'S TO ARISE AGAIN

SAN FRANCISCO, April 26.—Delmonico's is to be rebuilt at once. But the location of the famous restaurant will no longer be at the old place on O'Farrell street, but out on Fillmore street at the corner of Bush. It was authoritatively stated this morning that the management has secured an option on the vacant lot opposite Franklin Hall, and would begin a building as soon as practicable. Nothing so far has been heard from the owners of Marchand's or the Poodle Dog as to what their intentions are in regard to restoring these famous resorts.

The location of the Delmonico on Fillmore street is important, showing that when the new city is rebuilt the city will be changed, and in the readjustment the old places will be known no more.

RECEIVE REQUEST TO ARREST OUTSIDER

SAN FRANCISCO, April 26.—Police Headquarters this morning received the first official telegraphic request from another police department. It came from Minneapolis and requested that Harry Spencer be arrested for attempted wife murder.

A FRIENDLY ACT.
"Isn't Maud's new hat a perfect fright?" exclaimed the blonde girl.
"A fright! The worst I ever saw!" said the girl with the chocolate.
"Wonder where she bought it?" queried the first.
"At Blunk & Dink's. I helped her pick it out," answered she of the chocolates, triumphantly.

TO CARE FOR CHILDREN

Early this morning the Governor received the following telegram from Oregon:

"SALEM, Or., April 24, 1906.

"GOVERNOR GEORGE C. PARSONS, Oakland: Many children and some babies are coming through here unidentified and unaccompanied by anyone, cared for only by strangers. Can they not be gathered together at Oakland and kept together for subsequent identification? As it is, they will be forever lost to their parents.

"GEORGE E. CHAMBERLAIN,
"Governor."
The Governor referred this to E. B.

Baker, president of the Relief Committee, who immediately placed it in the hands of Benjamin Fay Mills, with power to act. Mr. Mills, finding the women of Oakland unable to take up the proposition at once, got hold of Colonel French and Brigadier Wood of the Salvation Army, who are to handle the whole matter. Then he conferred with the authorities, representing W. A. Hearst, who agreed to finance the entire proposition. The camp is now established and in well working order, and is known as "The W. A. Hearst Boy Scout Camp for Children and Parents" under the management of the Salvation Army at Bush Park, Thirteenth avenue. The East Oakland cars pass the entrance. Phone Marvill 34.

For further information either telephone or address the camp or Salvation Army headquarters, Ninth and Clay streets, Oakland. Phone Oakland 1214.

Fine Investment!

For factory, office, warehouse, storehouse, manufacturing, etc. For rent piece property (20x100) three blocks from Washington street. Make appointments through Box 856, TRIBUNE.

STOCK OF MEN'S CLOTHING NOTICE TO DEALERS

I have a stock of clothing invoicing the above amount, which I wish to dispose of. Dissolution of partnership of the firm of Benford & Levy has left these goods on my hands and the above figures represent their exact cost to me, laid down in Los Angeles.

The stock consists of 200 suits, 150 pairs of trousers and 20 overcoats—the balance left from our change of ownership sale. This clothing did not remain unsold, however, because of any fault in the goods. It was merely that most of the suits were in medium and heavy weights, unsuitable for wear in Los Angeles at this time of the year. No cheap, shoddy goods in this lot; the suits are wool chevots, coming from such makers as B. Kuppenheimer, and the Washington Brand.

If you want to get a stock of medium class, salable clothing in a hurry—at a reasonable figure—here is your opportunity.

I have also forty or fifty dozen men's colored shirts with stiff bosoms. Good assortment of sizes, which I will sell.

Prices quoted are f. o. b. Los Angeles. The terms are sight draft on receipt of bill of lading. Reference to Dun's or Bradstreet's will demonstrate my reliability. Get in touch with me at once by mail or wire.

Hard Facts For Oakland Property Owners

Those who charged exorbitant prices in San Francisco during the fire incurred the displeasure of the community.

In a similar manner, those who now contemplate the raising of rents out of all reason and the increase of real estate prices exorbitantly, are, we profoundly believe, MAKING A FATAL MISTAKE.

We believe that the tendency observable in this direction will work untold injury to the City of Oakland by forcing back across the bay those who would settle here, or by driving them to the cities of the East.

We therefore call upon the property owners of this city at this time to exercise justice and fairness in this respect.

For our part, WE DO NOT CARE TO RECEIVE FROM ANY PERSON for rent or sale properties in this city, Berkeley or Alameda unless the prices placed thereon be just and reasonable and there be no attempt apparent to trade upon the helplessness of the citizens of our sister city of San Francisco.

BUT--to all who desire in good will and all fairness to help along the work of civic reconstruction we offer our best and most efficient services in the sale or rent of the property they have.

1212 BROADWAY, OAKLAND

PASSES NEEDLESS

Mayor Mott has decided to remove all restrictions regarding the passing of people through the lines which have been guarded by the militia since the earthquake one week ago.

Heretofore, in order to pass through the lines, people had to present a pass either from the Mayor or the Adjutant-General or the Chief of Police, or a judge, showing that he was a member of the militia.

Heretofore this restriction will no longer exist.

The militia will be retained in place, but simply act to preserve order and see that no one goes where he will as long as his conduct is decent.

GIVE THE NAMES OF THE DEAD

Editor TRIBUNE: To all newspapers of San Francisco, Oakland, Berkeley, San Jose and Santa Rosa, Cal., General Greely requests that you make a conspicuous announcement asking all hospitals, doctors, coroners, and others concerned to report immediately to Captain Winn, Fort Mason, the names and addresses, sex and age of all people known by them to have been killed by earthquake or fire; to names and addresses of all people injured by the earthquake or fire stating whether the injury is serious or not.

This is a most important matter for the purpose of making a correct list of killed and injured, so that it may be published and broadcast to satisfy the inquiries of thousands all over the United States.

KEY ROUTE'S NEW TRAINS SOON TO RUN

The Key Route people have a small army of men and teams rushing work on the new Twenty-second street cross town line.

At the present rate of progress trains will be running to Broadway in three weeks.

EDUCATORS WON'T MEET.

ASBURY PARK, N. J., April 26.—In response to an invitation extended by President R. A. Tusting of the Asbury Park Convention bureau to the National Educational Association to hold its annual convention in Asbury Park, July since San Francisco appeared responsible, a telegram was received yesterday saying that probably no meeting will be held this year and that the committee will meet in Chicago Saturday.

STORE IS MOBBED

BERKELEY, April 26.—An excited bunch of men and women mobbed Grocer Bill of 2101 Shattuck avenue last night, alleging that he sold goods intended for the refugees from San Francisco. The crowd made things warm for the grocer for half an hour and he only escaped by calling for the police.

It seems that the local relief committee had exchanged supplies with the different grocers around the town in an effort to secure the kinds of goods that were wanted for the refugees. A full account of all goods exchanged was kept by the committee in case a difficulty came up about the goods marked "relief." Sugar, crackers and flour in large quantities were exchanged for rice, soap and numerous other staple articles.

When the mobbing occurred, the grocer noticed the mark on the goods. They invaded Bill's place and tried to break his vengeance on him until the arrival of the police, who explained the matters to them.

ORPHEUM PERFORMER LOSES HER BELONGINGS.

SAN FRANCISCO, April 26.—Madame Mosele of Paris has been sent to New York through the courtesy of the Orpheum circuit. She was doing the living pictures and poses plastic at the Orpheum and lost everything in the fire. She arrived here a few weeks ago with two carloads of settings and left with a hand satchel. She was at the Palace Hotel until she was forced to leave, then went to the Florence and again had to move, each time leaving some of her belongings until she was destitute of even the apparel and other things in her rooms.

WANTS NEWS FROM LOCAL FIGHTERS

(Special to TRIBUNE.)
LOS ANGELES, April 26.—The Nelson-Herrera and Herman-Britt contests have both been postponed until the week of May 26. I want Nell to meet Attal May 4. Inform Nell and Britt if possible.
T. J. MCGRATH

MINISTER ARRESTED.

The Rev. George Pinneo, of Fruitvale, was arrested this morning by Deputy Constable Bray, on a charge of making threats against the life of his wife. He was brought to the County Jail and will be formally charged later. Pinneo is 35 years of age, and is considered rather eccentric by his neighbors.

ORPHEUM TO REBUILD

SAN FRANCISCO, April 26.—The Orpheum Circuit Company holds an important meeting this afternoon at the home of Morris Meyerfeld at 1899 California street. In speaking about it, Manager John Morrisey said this morning: "The Orpheum will be up with the rest of the buildings. We own the ground where the old Orpheum stood, but whether the new one will be built there is something I cannot say. Martin Beck, the general manager of the company, arrived here from Chicago last night and will be at the meeting to-day."

Mr. Morrisey's address is at 1899 Bush street.

WARRANTS FOR SCHOOL TEACHERS

"There's more sociability in San Francisco of an 'on the level' kind, now, than there ever was before in its history. I guess," said a young man from Oregon, who had been "doing the town" in its new condition. "Cooking in the street isn't conducive to exclusiveness, and no one seems to be any the worse for the sociability, so far as I could see. I got a taste of it, myself for I had hardly gotten into town when a soldier said 'Here, young fellow, give us a hand on this load of potatoes, will you?' I did, but he wasn't hard on me. He let me off 'n' about fifteen minutes, and picked up the best fellow who showed sufficient courtesy to stand and 'rubber.' After that I did my sight-seeing on the move. Down near the Presidio, it's the men mostly who are doing the cooking. One place I saw three men on one job of cake-baking. One kept the fire up, another grained the griddle and the third baked the cakes. In many cases, I was mixing something, come down here and show me how much water to put in this thing."

SPRECKELS BAND STAND IS A WRECK

SA FRANCISCO, April 26.—The \$100,000 band stand given to Golden Gate Park by Claus Spreckels and which has been the delight of thousands of visitors to the park on Sunday afternoons, is practically a complete wreck. It is cracked throughout, while large portions from the highest part have broken off and fallen, wrecking the figures of the bandstand.

"The Dream of the Vine," by Gustave Doré, the \$20,000 vase stationed at the entrance to the museum is badly tilted but is being held in position by ropes and braces and can be straightened, the damage being to the pedestal.

WORK OF POLICEMEN

SAN FRANCISCO, April 26.—The first regular police detail was issued by Police Captain Duke of Company A this morning. Under the new arrangement of the Central Station at Bush and Fill more streets, Captain Duke's men must patrol the section of the city bounded by Haight and Broadway and by Van Ness and Central avenues. All members of the company reported at 7 o'clock this morning and were assigned to their respective beats and will do twelve hour shifts while existing conditions prevail.

As soon as possible patrol boxes will be connected with the central station for the use of Company A men. The police alarm system in the section not swept by flames is in good condition, and it will require very little work on the part of the city department of electricity to make the necessary connections with the central station until these connections are made, however. The reports of the men will be given to the sergeants, who will direct their movements when they are not working under direct instructions from captains and lieutenants.

GOVERNOR WILL PAY MONEY

Collector of the Port Station, representing the San Francisco Relief Committee, called on Governor Pardee today and asked him what he proposed to do with the money for relief which had been forwarded to him. The governor replied that it was his intention, as early as possible, to turn over the money in question to the San Francisco Relief Committee. He said that he had a note which he gave to Collector Strickland. The governor is having the records examined to ascertain the amount of money involved.

TEN THOUSAND DOLLARS FROM BRITISH COLUMBIA

This morning a small sack was delivered in the office of Governor Pardee. It contained \$10,000 in greenbacks and was the donation of the government of British Columbia to the relief of the victims of the earthquake.

GOVERNOR PARDEE GOES TO FORT MASON.

Governor Pardee went to Fort Mason today to attend a conference between Generals Greely and Funston and the general relief committee of San Francisco regarding the best means of controlling the situation. He was accompanied by Secretary Metcalf of the Department of Commerce and Labor and Col. Wilhelm, U. S. A.

PLENTY OF MONEY

SAN FRANCISCO, April 26.—It will be of great convenience to San Francisco bankers and to the people of San Francisco if it is clearly understood that the general and sub-postoffices of San Francisco are now regularly cashing all money orders presented to them. Also that the telegraph companies are cashing, as usual, all transfers of money by telegraph. The knowledge of this and the use of these agencies will relieve the bankers of the city of much work that can for the present be better transacted through the medium of the postoffice and the telegraph companies.

CAN PUT MONEY IN U. S. MINT

WHITE HOUSE, WASHINGTON, D. C., April 26.—To Hon. James D. Phelan, chairman finance committee, San Francisco: The finance committee can use the United States Mint at San Francisco as depository for relief funds until the treasury opens, and thereafter can use the subtreasury until the banks open. They should withdraw funds from the depositories in sums not less than \$100, as government offices in San Francisco are not equipped to do banking business. Please consult as to detailed arrangements the superintendent of the mint at San Francisco. Secretary Shaw will immediately wire suitable instructions to the superintendent of the mint and the assistant treasurer. Authority is especially given to make arrangements for the safekeeping of the money and to disburse congressional appropriation, amounting in all to \$2,500,000.

THEODORE ROOSEVELT.

Instead of the elaborate wedding which was to have been solemnized at Grace Church in San Francisco at noon today, Captain Albert C. Truly, of the medical department of the United States Army, stationed at the Presidio, and Miss Elizabeth Downing, a granddaughter of Secretary of War L. B. Schurz, quietly accepted each other for better or worse today at the Huff residence, at the time originally set for the wedding. The ceremony was performed by the Rev. Dr. Evans of Grace Church, and was witnessed only by the immediate relatives of the bride and groom. The latter will a once return to his duties in the stricken city across the bay. Captain Truly is a native of New York, 34 years of age, and his bride is a native daughter, aged 21 years.

Blood Poisoning

Results from chronic constipation, which quickly cured by Dr. King's New Life Pills. They remove all poisonous matter from the system and infuse new life and vigor; cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. Sold by C. Good Bros., drug stores, Twelfth and Washington streets and Seventh and Broadway.

LIFE INSURANCE SOLICITORS

waiting resumption of life business, can make good money soliciting accident insurance. Call at Room 518 Union Savings Bank Building, Broadway, Oakland.

GOOD WORK OF THE ELKS

I. H. Clay, speaking this morning for the Elks Relief Committee, made the following statement: "We wish it understood that our temporary relief work is completed today and the people who have been in our charge are to be taken by the proper authorities and

be housed and provided for at Military Camp No. 1, near the site of the Elks Tent City on Adams Point.

"Today the Elks and other fraternal organizations with the churches who have all provided efficient and temporary relief have sent all those in their charge to the Central Relief Committee who are now prepared to shelter and care for the homeless in our city."

"The Elks tents will be folded one by one today as they are vacated, but the hospital of twenty-two rooms at Twenty-second and Webster streets, will be indefinitely maintained."

The Elks have spent in the neighborhood of \$5000 for their relief work and have sheltered 1100 people at night, but the number last night was reduced to 800.

FIRE SPREAD OVER FIFTEEN SQUARE MILES TEN THOUSAND ACRES COVERED BY FLAMES

GREATEST TEMBLOR IN AMERICA

The recent shock in California is being mistakenly spoken of as the most violent and destructive earthquake that ever visited the United States. The great earthquake which destroyed New Madrid, Missouri, in 1811 was far more violent and more widely extended. It was felt from Pittsburgh, Pa., to the Ozark mountains in Arkansas, and from the lower rim of Lake Michigan for a thousand miles down the Mississippi.

MILES IN LENGTH.

Over a region of 300 miles in length, from the mouth of the Ohio to that of the St. Francis, the ground rose and sank in great undulations, and lakes were formed and drained again. Many large streams changed their channels and even their courses.

The shock was perceptible out on the plains and the only reason the loss of life and property was so comparatively light was the territory disturbed was sparsely inhabited and contained no cities and few large towns. The physical evidences of this tremendous convulsion of nature are still visible in the vicinity of New Madrid, which up to the time of the earthquake promised to be the great central city of the Mississippi valley.

CENTRAL POINT.

The central point of violence in this remarkable earthquake was thought to be near the Little Prairie, twenty-five miles below New Madrid. The first shock was felt on the night of December 16, and was repeated at intervals, with decreasing severity, until the middle of February.

Every town in Ohio and Mississippi was severely shaken up, the water of the river, which the day before was tolerably clear, being rather low, changed to a reddish hue, and became thick with mud thrown up from the bottom, while the surface lashed vehemently by the convulsion of the earth beneath, was covered with foam, which, gathering into masses the size of a barrel, floated along on the trembling surface. The earth on the shores opened in wide fissures, and, closing again, threw the sand, mud and water in huge jets, higher than the housetops. The atmosphere was filled with a thick vapor of gas, to which the light imparted a purple tinge. From the temporary check to the current, by the heaving up of the bottoms, the sinking of banks and sandbars into the bed of the stream, the river rose in a few minutes five or six feet, and, impatient of the restraint, again rushed forward with redoubled impetuosity, hurrying along the boats, now set loose by panic-stricken boatmen, as in less danger on the water than at shore, where the banks threatened every moment to destroy them by falling earth or carry them down in the vortex of sinking masses. Many boats were overwhelmed in this manner, and the crews perished with them. Numerous boats were wrecked on the snags and old

trees thrown up from the bottom of the river, where they had quietly rested for ages; while others were sunk or stranded on the sandbars or islands.

MANY SHOCKS.

After shaking the valley of the Mississippi to its center, the earthquake vibrated along the courses of the rivers and valleys and died away along the shores of the Atlantic. In the region of its greatest force, the pending and tremendous elemental strife which finally ensued, the current of the Mississippi was driven back from its source with appalling velocity for several hours, in consequence of an elevation of its bed. Its accumulated waters came booming on, and, overtopping the barrier, thus suddenly raised, carried away everything before them with irresistible power. Boats then floating on the surface shot down the declivity like an arrow from a bow amid warring billows, and the wildest disorder. A few days' action of its powerful current sufficed to wear away every vestige of the barrier thus strangely interposed, and its waters moved on their wonted channel to the ocean.

The day that succeeded this night of dread brought no solace in its dawn. Snook followed shock, a dense black cloud of vapor overshadowed the land, through which no sunbeam found its way to cheer the desponding heart of man.

The appearances that presented themselves after the subsidence of the principal commotion were indeed staggering to the beholder. Hills had disappeared and lakes now found in their stead, numerous lakes became elevated ground over the surface of which vast heaps of sand were scattered in every direction, while in many places the earth for miles was sunk below the general level of the surrounding country, without being covered with water.

LITTLE TO FEAR.

Our recent earthquake little resembles the mighty cataclysm which shook the center of the continent a century ago.

ST. PAUL'S EPISCOPAL CHURCH IS SAFE.

Editor TRIBUNE.—St. Paul's Episcopal Church, corner of Fourteenth and Harrison streets, has been thoroughly inspected by the accredited inspectors and pronounced absolutely safe. The church has sustained no serious damage. There will be holy communion at 8 o'clock a. m. and full morning service at 11 a. m., with the Rev. William Wilkinson, special missionary, as the preacher. There will be no Sunday school and no evening service.

LABOR NOTES.

Regular meetings of unions connected with the Building Trades Council of Alameda County have been resumed at B. T. C. headquarters on Eleventh street near Broadway. The International Union of Journeymen Barbers voted \$1,000 for the benefit of members rendered needy by the earthquake and fire.

A well-known engineer stated last night that the area devastated by fire in San Francisco approximates 10,000 acres, or about fifteen square miles. There are few cities in the world where so much valuable property is contained in an equal territorial area. Within this fifteen square miles were nearly 100 banks, some of the finest buildings in the world, thousands of mercantile and manufacturing establishments and more than 250,000 inhabitants, besides some 40,000 transients.

These stupendous facts serve to convey a faint idea of the magnitude of the losses sustained and the vast extent of the ruin. They also serve to sharply emphasize the comparatively small loss of life from all causes—earthquake, fire, accident and shooting.

The aggregate of fatalities will probably not exceed 700, will certainly not reach 1000. A striking proof of the masterly manner in which the civil and military authorities handled the situation.

Notwithstanding the enormous

and widespread destruction, the homes of 150,000 people are still standing practically uninjured. There still remain the great shipyards at the Potrero, the Pacific Mail docks, the stockyards at South San Francisco, the docks, manufactories along the water front from Mission creek to Hunters' Point. The mint, the postoffice and a large retail district on Fillmore and Devisadero streets.

There is still a big city standing in San Francisco.

LIQUOR IS DESTROYED

SAN FRANCISCO, April 25.—With the relaxation of the military law and the abolishing of passes, permitting people to return to the city, thousands of curiosity seekers were attracted from across the bay yesterday and today and hundreds gazed sadly upon the ruins of their homes and dug through the ashes for some treasured memento.

NO LIQUOR.

The Marines yesterday destroyed a considerable quantity of liquors in that section of the city in which they hold sway. This branch of the navy controls and polices the best portion of the residential district and although they have ruled with an iron hand, their authority has been exercised with such good judgment and discretion that not a single complaint has been made.

This is in sharp contrast to the storm of protests and indignation that various arbitrary actions of the State militia has evoked.

STORES DESTROYED.

What the military and the citizens committee, the storekeepers whose places escaped destruction, claim they do not know just where they stand. It was understood by them that they could open their places for business but overlooked the fact that only such as had bars attached, would be permitted to do so. As a result, a detail of marines destroyed hundreds of dollars worth of liquors late yesterday afternoon in places which had been opened for business. The proprietors were given the choice of closing again or having their valuable stock poured into the street. The work of re-opening the telephone system is being good headway. Port telephones were in operation yesterday but the dynamiting of walls put some of them out of commission again.

ALL BERKELEY BANKS OPEN

BERKELEY, April 25.—The banks of Berkeley opened their doors today for the first time. They are only opened for accommodation of the sake honoring no checks except those on their own bank. These are limited to \$50. Until financial conditions are settled no general banking business will be done. The banks are their own account regarding the proclamation of the Governor making each day a legal holiday. The Berkeley National and the First National banks have both a large sum of money from the mint in San Francisco. Both institutions were made United States depositories. The postoffice is also allowed to deposit money in the local banks.

BRICKLAYERS' BILLS MUST BE "O. K."

BERKELEY, April 25.—Certain bricklayers of Berkeley, taking advantage of the present demand for bricklayers, are charging exorbitant prices for the repairing of chimneys. But the bills for the repairs have to be "O. K." by Building Inspector Robert Bull, and are cut down all bills which he believes are unreasonable. One charge was cut down from \$60 to \$10 for the repair of a single chimney. Inspector Bull has issued an ultimatum to all contractors of the city. He says that he will not "O. K." a single bill charged beyond the regular wage.

LURLINE SPRECKELS MARRIED IN PARIS

PARIS, April 25.—The civil marriage of Spencer Eddy, Secretary of the American Embassy at St. Petersburg, and Lurline Spreckels, daughter of Claus Spreckels of San Francisco, took place today at the town hall of Paris. The presence of a number of relatives and friends of the church marriage will be celebrated tomorrow.

SAN BERNARDINO SENDS CITIZENS' DELEGATION.

A deputation of citizens from San Bernardino county called on Governor Pardee today. Among them were Judge Oster of the Superior Court; W. J. Curtis and E. Brown. They told his excellency that they had come to look the field over and ascertain what was most needed here to aid the sufferers. They said they had already sent a great deal to the General Relief Committee and that they had plenty more money, food and provisions to send which would be forwarded as soon as the committee could ascertain what could be used to great advantage.

MAYOR MOTT GOES TO VISIT SCHMITZ.

Mayor Mott went to San Francisco yesterday afternoon to confer with Mayor Schmitz on subjects affecting the welfare of both cities and the administration of the affairs of the relief forces on both sides.

SUPREME COURT

Undaunted by the destruction of courtrooms, records and law library, the justices of the supreme court of California have decided that the court shall remain in San Francisco rather than seek temporary quarters elsewhere. Frank C. Jordan, clerk of the supreme court, after a conference with Chief Justice Bentley, this morning announced that no attempt would be made to find quarters for the court either in Oakland or Sacramento, as was at first suggested, but that the court would remain in San Francisco. Asked what had been done to secure temporary quarters for the court, Mr. Jordan said:

"Temporary quarters for the supreme court will be secured near one of the private law libraries of which several have been saved from the fire, and Deputy Clerk Erb, Dryden and Cory will remain in San Francisco. I shall establish permanent offices for myself in Sacramento, where papers can be sent to me for filing if desired."

"All the records of the supreme court in San Francisco were destroyed in the fire, but as these records were kept in triplicate, one copy of each being kept in Sacramento, there will be no difficulty in making copies of all papers in cases pending before the supreme court from those now on file in Sacramento."

Among the largest and most complete of the private law libraries preserved from the flames which destroyed the library and records of the supreme court were those of Judge Slack and Attorney Garrett McEnaney. Judge Slack's library was at his home, which was untouched by the fire. He has placed books of reference have been destroyed. Attorney McEnaney, as soon as he found that the records of the supreme court were destroyed, was likely to fall prey to the flames, secured the services of a drayman and had every volume of his library from the fire. The library has been removed to a place of safety, and the owner has placed it at the disposal of attorneys who have been burned out.

SALESMAN IS AMONG MISSING

VALLEJO, April 25.—James H. Norton, a traveling salesman of Denver, Colorado, is missing. On the night of the earthquake he was either at the top of the Maryland Hotel in San Francisco or his wife is in Denver and is distracted with anxiety.

FURNISH STEEL

PITTSBURGH, April 25.—Orders have been issued by the officials of the Carnegie Steel Company making all contracts for structural and other steel material to be used in the reconstruction of San Francisco "emergency orders," and giving them priority. John G. Neale, structural engineer of the Carnegie Corporation, left last night for San Francisco to take charge of the structural of the United States Steel Corporation on the Pacific Coast. The order relating to emergency material, it is said, will apply not only to direct contracts from San Francisco, but also to contracts placed by builders who may receive orders to begin the work of rebuilding. It is already stated that it will apply to pipe, bridge material and to any rails necessary in the reconstruction of the street railway lines.

Colonel Tony Lubulski announces that ten benefit performances will be given for the benefit of the Theatrical Mechanics' Association, vaudeville people and Musicians' Union. The admission will be fifty cents. The entire receipts of the ten performances will be given to their relief. Mr. Lubulski announces that a force of workmen are now at work repairing the damage made by the earthquake. The repairs are made as quickly as the Novelty Theater, and as the benefits will take place. Although all of Mr. Lubulski's theatrical interests in California were destroyed, he was the first to come to the front with benefits for the suffering people. Any one requiring any assistance financially or otherwise, call at the Novelty Theater.

REFUGEE IS INSANE

BERKELEY, April 25.—Wildly tearing her hair and shouting at the top of her voice, Mrs. Jordan, a fire refugee from San Francisco, went temporarily insane at the North Berkeley Hotel last night during dinner hour. The loss of her pretty home in San Francisco and the hardships she underwent in fleeing from the burning city was too much for her tired brain, and the result was a total collapse.

Just before dinner Mrs. Jordan took some headache powders to ease the pain in her brain. But the powders had a contrary effect and the unfortunate woman went wildly insane.

Dr. Kelley was called and diagnosed the case as one of temporary insanity, and the patient was at once removed to the Alto Bates Sanatorium, on Dwight way. It will be some months before the woman recovers from the shock.

COURTHOUSE TO COME DOWN

SANTA CRUZ, April 25.—The courthouse here is such that it will probably have to be razed with dynamite. It is in a very dangerous condition and the county officials refuse to enter it. The authorities, however, refuse to dynamite the building because of the fact that serious damage to other buildings will probably result.

REFUGEE DIES.

NAPA, April 25.—Mrs. Frank Castiglioni, one of the refugees from San Francisco, died today at St. Joseph's hospital, which has been converted into a temporary hospital. The woman, who was quite aged, had been unconscious since Friday when she was brought here. She had resided at 805 Montgomery avenue.

DANGER FROM THE PLAGUE

There is grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. George Walls, of Forest City, Me., writes: "It's a Godsend to people living in all climates where coughs and colds prevail. I find it quickly ends them. It prevents Pneumonia, cures La Grippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds. 50c and \$1.00. Guaranteed by Dr. J. C. Wells, 1218 Broadway, New York, and Washington streets and Seventh and Broadway. Trial bottle free."

USE Goldberg, Bowen & Co's HIGH GRADE COFFEES

QUALITY AND UNIFORMITY FULLY GUARANTEED

POND'S EXTRACT THE OLD FAMILY DOCTOR

Sprains

should be gently rubbed with Pond's Extract and bandages applied. The pain is relieved, the swelling is reduced and the concealed hemorrhages which usually accompany sprains are checked. The sprains should be carefully rubbed upwards from below the injury with Pond's Extract. Its antiseptic properties are of the utmost value in keeping the blood clots that accompany sprains from decomposing.

Witch Hazel is not the same thing. On analysis of seventy samples of Witch Hazel—offered as "the same thing"—fifty-two were shown to contain wood alcohol or formaldehyde or both. Avoid danger of poisoning by using

THE OLD FAMILY DOCTOR

BANKERS ARE PAYING THEIR CLIENTS

Oakland's bankers are delighted today, the cause of the satisfaction being the apparent confidence of the public in general, and of the depositors in particular, in the stability of the banks and the general soundness of the situation.

The banks opened for the second time today, and from all appearances the occasion might have been the ordinary banking hours of the various institutions. At several of the banks only a small group of persons were in sight to transact business, while at one or two places not more than two or three patrons occupied the attention of the tellers.

Yesterday there was a great deal more money deposited than there was withdrawn, which the officials take as a further indication that business has continued with slight interruption, and that business men and others have only been waiting an opportunity to deposit their money.

It also evidences, of course, the faith of the patrons in the stability of the

banks they are doing business with, and practically guarantees that there will be no trouble in handling the situation as long as the present ratio of deposits and withdrawals continues, the banks will not avail themselves of their further resources at the mint.

A soldier is stationed at the entrance to each bank, but this is merely to prevent the entrance of those who have no business within, or would enter merely through curiosity.

Signs are displayed at the various banks that checks are received only for collection, but this of course refers merely to checks on interior banks, whose definite standing has not yet been made known.

The bankers' committee held a meeting yesterday afternoon and again this morning, but merely considered the cases of some depositors who desired a little more money than the rule of the joint committee permitted. Some exceptions have been made in cases where the nature of the man's business was such as to demand a larger supply of cash than others.

TREASURER PAYS FOURTEEN MEN MONEY KILLED

County Treasurer M. J. Kelley opened up for business today. He will pay all warrants that have been properly audited. Mr. Kelley has been doing all in his power to help the creditors of the county get their money. The fact that he has opened his office and is paying out money has done much to help conditions.

SANTA CRUZ, April 25.—On the day of the earthquake fourteen men were killed at Loma Prieta, ten miles from here, by the crushing of a sawmill by a landslide. There were fifteen men in the sawmill and only one made his escape. He brought the news of the catastrophe to this city.

All ailments arising from a disordered stomach, torpid liver and constipated bowels are quickly cured by using Laxo's Pilex and Liver Bitters.

California's Splendid Executive.

The people of California are rarely fortunate in this emergency to have so resolute, clear headed and energetic a man as Governor Pardee in the executive chair. His services to the public during the last eight days are of inestimable value, and furnish impregnable proof of capacity of the highest order combined with a keen and exalted sense of duty.

To the Governor's promptitude and decision the speedy restoration of order and the thoroughness of the relief measures are largely due. Seldom have the unforeseen emergencies of a sudden crisis been met with such energy, coolness and promptness.

Governor Pardee took personal command of the situation as soon as the first disaster occurred, and he has been in personal command ever since, directing operations at a hundred points, moving with alert vigor, yet making no mistakes. He has worked incessantly night and day, scarcely sleeping at all, to maintain order, preserve property and afford relief to the distressed. So much efficiency and endurance are rarely displayed by one man. In putting them forth at this time Governor Pardee has won imperishable honor for himself and earned the lasting gratitude of the people of California.

Only those coming in immediate contact with the Governor during the past few days and having a personal knowledge of the manner in which he has handled the public business can appreciate the magnitude of the task he has performed or the sound wisdom of his measures. He afforded an example of self-command and coolness that insensibly allayed excitement and inspired confidence. His penetrating mind grasped every situation before it was fairly stated and leaped to conclusions with almost startling rapidity.

It is a marvel that he did such a tremendous amount of work, but it is a still greater marvel that he did not make a single blunder. It is a tribute to his tact and clear sense that he avoided all friction between the federal army officers, the municipal authorities of San Francisco and Oakland and the various relief committees. He showed his ability to work in harmony with everybody.

And all this time he has kept a firm hand on the financial lever and stayed hasty and ill-advised action which would have produced great embarrassment if not monetary disaster throughout the State. He kept in mind the consequences of an extra session of the Legislature, and here again demonstrated that he is pre-eminently the right man in the right place.

When the story of the recent calamity comes to be written, no name will shine with greater lustre nor receive higher honor than that of George C. Pardee.

Wild Rumors in Los Angeles.

The Los Angeles papers printed the wildest and most sensational stories while San Francisco was burning. One of them stated that 30,000 lives had been lost; another that the Ferry Building had sunk six feet, and that the docks and wharves were in utter ruin; a third said the panic was universal and indescribable; a fourth stated that the calmness of despair had settled over the doomed city. However, the Los Angeles News discounted all this by a comment on the following statement made by Dr. Woods Hutchinson of Arrowhead Springs:

"One of the most astonishing things, to my mind, connected with the whole affair, is the calmness with which the catastrophe was met by the people. There were no screams; no cries. Immediately the city was shaken down the people began taking what of their personal effects they could get hold of and making their way to open places. I, with most of the other guests of the St. Francis, stayed at that hotel until midnight, when we were forced out by the fire. I took a blanket and my personal effects and made my way to one of the parks and passed the remainder of the night there."

Said the News:

"It is a trait characteristic of the alert American mind which, moving quickly to conclusions, is keenly alive to impending dangers, that in the presence of a great calamity, the intellectuals prevail and control the weaker human forces. This has been exemplified scores of times in the last twenty years. In hotel fires, in railroad collisions, in shipwrecks, in cyclones, in tidal wave disasters, men and women face death with a calmness which is said to be that of 'despair.' It isn't, though, it is the calmness superinduced by acute minds repelling animal fears."

This states the case exactly. The people of San Francisco were never panic stricken and never lost their presence of mind. The presence of mind and self-control they displayed were never before equaled under like circumstances.

The Manumission From Superstition.

Not a single clergyman within our knowledge has risen to announce that the devastation of San Francisco was a divine punishment for the "iniquity of its inhabitants." No better proof could be given that theological superstition is dying out, and a saner and more humane conception of the ordinances of the Creator is taking the place of the primitive idea that God is a personal avenger in this life for lapses from righteousness. With the disappearance of superstition has come a liberation of the minds of mankind from unreasoning terror of the elements. People now realize that the collapse of an insecurely constructed building is not a visitation of God's wrath for somebody else's misdoing, but a direct and natural result of faulty plans and indifference to consequences. Now that the clergy have ceased to ascribe to the deity the consequences of human greed and folly, the ground is cleared for more wholesome laws and regulations to govern construction. Incompetent architects and dishonest contractors must bear the responsibility for the disasters they cause when the pulpit declines to vindicate them by putting the blame on a cruel and revengeful God.

Too much emphasis cannot be laid on the fact that the next Governor of California should be a man with a clear head and a firm hand, entirely devoted to the public interests. We are fortunate in having at the helm such a man in George C. Pardee. Which fact lends pith and point to the old adage, "Never swap horses in the middle of a stream."

In a few days things will be so settled down that the politicians will renew their slate-making and squabbling over the crumbs of office.

The mass of people refuse to distinguish between immediate volcanic action and seismic disturbances. In the popular mind the recent earthquake in California is erroneously intimately associated with the disasters in the vicinity of Mount Vesuvius. The destruction around the bay of Naples was caused by volcanic eruption, not by earthquake—the discharge of lava, ashes and stones from a subterranean fire. Here the destruction was caused by the shaking and quivering of the earth's surface, due to unseen and unknown causes. Just precisely what agencies accomplish this is something upon which scientists are not agreed, and is still a question in the theoretical stage.

CHIPS FROM OTHER BLOCKS.

Senator Lodge proposes imprisonment for railroad managers guilty of granting rebates. This is clearly unconstitutional, on the ground of "cruel and unusual" punishment, particularly "unusual."—Washington Post.

Richmond's Mayor, who says that for him "there are but two flags, the State flag of Virginia and the battle flag of the Confederacy," has not alarmed anybody about the safety of the Union. He has only made a fool of himself.—New York World.

There is a general revival of Miss Anthony's famous saying that God never made a man good enough to govern a woman without her consent. And she never went back on it.—Cleveland Plain Dealer.

Hair Gone?

Suppose your hair should all leave you! Then what? Weak hair is the kind that falls out; not strong hair! Just learn a lesson from this. If your hair is falling out, strengthen it. Give it food, hair-food—Ayer's Hair Vigor. It checks falling hair, cures dandruff, and makes the hair soft and smooth. Sold for over half a century.

SAVES OAKLAND FROM SAN FRANCISCO'S FATE

By BETTY MARTIN

Oakland owes to Miss May Benton a debt of gratitude. But for her prompt action the morning of the earthquake this city might have suffered a catastrophe similar to that which befell San Francisco.

The Benton home is on Sixteenth street, near San Pablo avenue, and is surrounded with wooden buildings. Once a fire started at that point, with the water supply cut off, Oakland had been doomed. With the first shock Miss Benton rose to extinguish a lighted kerosene heater, on top of which stood a kettle of hot water. While so doing these overturned, and at the same time a heavy bookcase toppled over, pinning her to the floor.

Fortunately, the doors were forced open and the books slid out, reducing the weight. To this fact Miss Benton owes her miraculous escape from death. As it was, her foot is badly burned and she has numerous scalp wounds from pieces of broken glass, in addition to a badly bruised side and arm.

Miss Benton is one of Ebells' charter members, and is particularly gifted, having both artistic and literary ability.

LITERARY COLONY.

The artist and literary colony on this side of the bay has been enriched by the addition of several new members. How long they will abide here is a matter of conjecture, for it is an open secret that they aren't burdened to any extent with luggage.

Theodore Wores was in Oakland this week and is reported to have lost all his celebrated paintings in the San Francisco fire. They represent practically the work of a lifetime, and while their burning is to be deplored, there is consolation in the thought that he has many years yet before him in which to add to his already established good fame. Mr. Wores' last painting brought him

it will be remembered, the sum of \$5000.

Dr. Frank Spearman, who, with his family, has been spending the winter in the Piedmont hills, was East when the temblor came, but he hastened back at the first tidings of the disaster. I do not know whether he had finished reading the proof of his new book or not.

W. C. Morrow's home, on Vallejo street, is said to be uninjured and a place of refuge for those of the craft.

Xavier Martinez was one of the lucky ones. He saved all his pictures. Some are at present on exhibition in New York, several were at Vickery's, others in his studio, whose roof fell in. He has established himself at the home of Herman Whitaker, out in the hills. Bassett, the musician, who was burned out, was there, too, for a day or so, as were also, I believe, Henry Lafler and Porter Garnett.

ONE HAUNT LEFT.

There is one haunt of Bohemianism left in San Francisco to tell the tale of good times past. Copi's, the celebrated, yet remains, and there, amid the many reminders of revels gone, Mr. Lafler, editor of the Argonaut, and of the Blue Mule, has established himself, in company with his typewriter, whose name, I believe, is Remington.

The San Francisco fire played curious tricks. For instance, on the very crest of Russian Hill, just at the precipice's edge, stands two homes known to all artists of the West. One belongs to Joseph Worcester, pastor of the Swedenborgian Church, and right aside of it, in the same lot, unharmed, is the house of Thomas Richardson. Mrs. Richardson, who is an artist, took refuge at Fort Mason, but Mr. Richardson stayed until driven away by the soldiers, only to return when they left. Mr. Worcester is temporarily at the home of John Galen Howard in Berkeley, and to Oakland he

TWENTY-FIVE ARCHITECTS COMING TO SAN FRANCISCO

CHICAGO, April 26.—Twenty-five architects, headed by General William Sooley Smith, will leave Chicago for San Francisco within the next two days. General Smith offered his services to San Francisco yesterday through Mayor Dunne. "General Smith is a man of vast experience in steel construction and foundation work and has been identified with the building of a large number of Chicago's large office buildings," said Mayor Dunne. "I shall confer with Building Commissioner Bartzen regarding the selection from the list of volunteers of the twenty-five men who will accompany General Smith."

DISASTER IS TRUE LEVELER

The City Superintendent of Schools has issued the following circular to the principals and teachers of the Oakland school department:

"The salary orders for the month of April will be drawn as follows:

"Teachers and principals of the grammar and primary schools, on the State fund. Cash available July 15.

"Janitors and evening school warrants on the city school fund. Cash available.

"High school salaries on the high school fund. Cash available for these warrants on May 15.

"The banks will discount school warrants as usual. These warrants will be ready at the office Friday morning, April 27.

"Janitors' warrants will be found in the City Auditor's office.

"Very respectfully,
"J. W. McCORMYCK,
"City Superintendent Schools."

brought the welcome intelligence that twenty-three of Keith's paintings, which had been at Vickery's, are saved.

IS UNSCATHED.

But that is not all. There is another place in San Francisco known among the cultured world over still standing unscathed. I refer to the Swedenborgian Church, on Lyon street, near Jackson, next door to which is William Keith's old home. Mrs. Lloyd Baldwin, for many years a resident of Oakland, and a clubwoman as well as a stickler for equal suffrage, now lives there, and to her keeping is consigned the church key. Inside the church are several of Keith's famous paintings. The other furnishings, too, are worthy of note. There are no pews, as customary, and the chairs are capacious and of an old English pattern, costing at the rate of \$100 a dozen. Instead of foot-rests the worshippers kneel upon Japanese mats. An immense fireplace near the entrance attracts attention, and the very rafters differ from those of other churches, in that they are from four madrone trees cut at Sausalito. This little church, unpretentious on the outside, is one of the sights of San Francisco—not, perhaps, a landmark dear to the forty-niners, but a place about which centers culture. Its fame had crossed the continent to Europe, where hundreds will be glad to know that it still stands intact.

The Mission Dolores, too, is left, and, turning from grave to gay, there is the perennial Cliff House, which, contrary to report, did not topple into the sea. Coming back to literary folk, Mrs. Will Madder has established herself out on Telegraph avenue, with a view to permanency. Mrs. Madder is a cousin of Minnie Madder Fiske, the actress. Robert Lloyd, the singer and leader of the First Presbyterian Church, has not been heard of to date, but it is to be hoped that he will turn up in time to lead the Ebells' choral section. Mackenzie Gordon is said to have lost everything but his voice, which his admirers say is second only to Caruso's. He, together with Charlie Dickman and Will Hopkins, made the Athenian Club echo to many merry lilt the Saturday night following the big 'quake, and their songs spelled hope to several penniless men, who but the day before were counted among the millionaires of the Pacific Coast. BETTY MARTIN.

WASHINGTON, April 26.—A stack of sheep-bound books which covered all the vacant space in the vicinity of Mr. Spooner's desk bore visible evidence at the beginning of the day's session of the Senate of the Wisconsin Senator's intention to make good the promise to reply today to Mr. Bailey's speech on the railroad rate bill. Mr. Spooner was among the first to make his appearance in the Senate chamber, but he was not able to begin his speech until more or less other business had been transacted.

The first business of importance was the passage of the bill introduced yesterday by Mr. Flint appropriating \$300,000 for the employment of Navy labor at the Mare Island Navy Yard, near San Francisco. Mr. Perkins reported the bill from the Committee on Naval Affairs without amendment and it passed without debate.

FALLING BODY'S TERRIFIC FORCE

The damage to the Presbyterian church in Elmhurst, and the experience of the Rev. Mr. Gerrior and his family in connection therewith, were among the most remarkable on this side of the bay at last.

There were some living rooms in the rear end of the church, where Mr. Gerrior and family were living, occupying at night both the first and second floor of the rear. The chimney from the church fell on the morning of the earthquake, and breaking down a portion of the roof in such a way as to make a temporary wall between the coats, leaving in one room Mr. Gerrior and in the other Mrs. Gerrior and the youngest girl, shutting the latter two in from other happenings.

At the same time the chimney, weighing, it is said, at least a thousand pounds, struck the side of the cot containing Mr. Gerrior, breaking a hole in the floor and going on down through the next floor in the cellar; while the hold that it got on the bed clothes of the cot in its passage took Mr. Gerrior, who is a heavy man, after it down through the hole and on to the corner of a table sitting on the floor below with such force as to drive one leg of the table through the floor.

There it was permitted to remain several days for the benefit of those who wished to see it. There were marks of the chimney on the table and it is believed by people of good judgment who have examined it that the table leg was driven through the floor by the impact of the body of Mr. Gerrior, who was quite seriously hurt.

LOOK ON RUINS OF HOMES

SAN FRANCISCO, April 26.—In the search for their former homes, hundreds of people to-day penetrated to the heart of the destroyed section north of Market street. Women as well as men traveled many blocks through the gray waste to gaze upon the ruins of their homes and cried as they stood in contemplation of the hopeless heap of brick and stone. Few of the ruined walls have been overthrown; by the conclusion of dynamite explosions, the market street, and it is considered comparatively safe to travel through the destroyed residence section.

SECRETARY METCALF AIDS RELIEF WORKS

Victor H. Metcalf, Secretary of the Committee on Relief, who comes here as the representative of the chief executive to report upon the situation growing out of the San Francisco earthquake and fire, was met yesterday evening by a TRIBUNE reporter.

"I arrived here Tuesday night," said Secretary Metcalf, "shortly after midnight. The steamer Albatross was waiting for us. I did not stop off here. We went immediately to Fort Mason.

"At 6 o'clock next morning I met Gen. Greely, who has charge of the San Francisco district. We steamed along the front of San Francisco and then we took a view of the burnt district for the purpose of getting an idea of the real condition of San Francisco.

"Later we had a consultation at Fort Mason as to what was best to be done. There were present General Greely, the chairman of the general relief committee of San Francisco and other gentlemen. We will hold a meeting every day at the same place at 11 o'clock.

"One thing which was decided upon was to ask that the sending of perishable food be discontinued and that only staple food and provisions be sent to the relief of the people.

much has been done and so well done. Archbishop Riordan told me that after the Chicago fire it was a long time before the giving out of the relief supplies were properly organized. They found that many workers were going from place to place getting food and clothing for the purpose of profit. I have no doubt the same sort of thing will be found to exist here. But the coping with the disaster problems is a matter of time and system.

"I want to go over all the ground so I can inform the President of just what has happened and just what is needed. You see there has been a great deal of damage outside of San Francisco—San Jose, Santa Rosa, Gilroy and many other places. I expect the damage in Oakland will amount to over half a million dollars—perhaps a million.

Girlhood, Womanhood, Motherhood.

THE first lesson that the young girl has of womanhood is usually a painful one. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life.

All the pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Dr. Pierce's Favorite Prescription. It establishes regularity. It tones up the general health, and cures headache, backache, nervousness, chorea, or St. Vitus's dance, and other consequences of womanly weakness or disease.

MOTHER OF THE FAMILY.

The anxious mother of the family oftentimes carries the whole burden of responsibility so far as the home medication of common ailments of the girls or boys is concerned. The cost of the doctor's visits are very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given free. Correspondence is held sacredly confidential.

IT STANDS ALONE.

"Favorite Prescription" is the only medicine for women the makers of which are not afraid to print just what it is made of on every bottle-wrapper. It is the only medicine for women every ingredient of which has the unanimous endorsement of all the leading medical writers of this country, recommending it for the cure of the very same diseases for which this "Prescription" is advised.

A MOTHER'S LOVE.

A mother's love is so divine that the roughest man cannot help but appreciate it as the crown of womanhood. However, motherhood is often looked forward to with feelings of great dread by most women. At such times a woman is nervous, dyspeptic, irritable, and she is in need of a uterine tonic and nerve, a strength-builder to fit her for the ordeal. No matter how healthy or strong a woman may be she cannot but be benefited by taking Dr. Pierce's Favorite Prescription to prepare for the event. It makes childbirth easy and often almost painless.

DR. PIERCE'S FAVORITE PRESCRIPTION

is a powerful, invigorating tonic. It imparts strength to the whole system and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," housekeepers, nursing mothers and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

A STRENGTHENING NERVE.

"Favorite Prescription" is unequalled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic

disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

A SCIENTIFIC MEDICINE.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate organism. It is purely vegetable in its composition and perfectly harmless in its effects in any condition of the system. For morning sickness or nausea, weak stomach, indigestion, dyspepsia and kindred symptoms, its use will prove very beneficial.

CURES OBSTINATE CASES.

"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," ante-version, retro-version, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

HOW TO LOOK BEAUTIFUL.

Young women or matrons should not allow themselves to look sallow and wrinkled because of those pains and weaknesses which become chronic and are the result of colds, tight lacing, and the imprudent care of the womanly system. Many a woman would look beautiful, have healthy color and bright eyes if it were not for those drains on her strength and those weaknesses which come all too frequently and make her life miserable. There is a ready-to-use Prescription, used a great many years by Dr. R. V. Pierce in his large practice as a Specialist in women's diseases, which is not like the many "patent medicines" on the market, as it contains neither alcohol nor any narcotic, or other harmful drug. It is purely vegetable. It is known as Dr. Pierce's Favorite Prescription and is sold by druggists.

DR. PIERCE'S PLEASANT PELLETS

cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heart-burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons subjected to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial.

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from overeating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

HEALTH AND HAPPINESS.

How to live in health and happiness, is the general theme of Dr. Pierce's Common Sense Medical Adviser. This great work on medicine and hygiene, containing over 1000 pages and more than 700 illustrations, is sent free on receipt of stamps to pay expense of mailing only. Send 31 one-cent stamps for the cloth-bound volume, or only 21 stamps for the book in paper covers.

No Man Stronger Than His Stomach.

THE celebrated Dr. Abernethy of London was firmly of the opinion that disorders of the stomach were the most prolific source of human ailments in general. A recent medical writer says, "every feeling, emotion and affection reports at the stomach (through the system of nerves) and the stomach is affected accordingly. It is the vital center of the body * * * *." He continues, "so we may be said to live by (and he might well have said through) the stomach." He goes on to show that the stomach is the vital center of the body. He says, "the function of digestion in its several stages is to prepare the food in forms which are suitable to be added to the structure," meaning the structure of our bodies. He continues, "every physical action from simple breathing, thinking and circulating of the blood to the most active bodily exertion wears out portions of the structure (of our bodies) and they become dead and so require to be taken away speedily. Much of the food which we take, and especially when unwholesome or in excess, adds to the waste material, and when it has undergone chemical changes it is still more mischievous." Then he goes on to the effect that the nervous system prompts every part of the circulating system. He says, "it gives its message every moment to the infinite number of glands and follicles to unload themselves of waste material so that the current of blood may carry it away."

"When these two processes of nutrition and excretion are thus carried on with equal assiduity we are in health, but when this equilibrium does not exist there comes disorder and disease. The common form of such derangement is indigestion or dyspepsia. The function of nutrition is interrupted and all the operations which depend upon it go wrong. Under these conditions it has a way of appearing in other types of disorder. Many of these often mislead physicians. Other parts of the organism are likely to be involved, and we may find consumption, kidney complaint, hepatic (liver) disorders, hysteria and even mental alienation (derangement)." He says, "it may be observed that deranged persons have a woe-be-gone expression, offensive breath, irregular action of the bowels, hallucinations and other like conditions of dyspepsia."

The foregoing is no doubt a rational view of the sad havoc worked in the human system by indigestion and dyspepsia, torpid liver and kindred derangements, which are generally associated with or followed by many other diseases of diverse appearance, but all depending upon the weak and disordered stomach. Cure the stomach weakness and you cure all these diseases and derangements.

For weak stomachs and the consequent indigestion or dyspepsia, and the multitude of various diseases which result therefrom, no medicine can be better suited as a curative agent than Dr. Pierce's Golden Medical Discovery. The Golden Seal root, Stone root, Mandrake root and Black Cherrybark are all recommended by such eminent authorities as Dr. Bartholow, of Jefferson Medical College; Prof.

John King, author of the "American Dispensatory"; Prof. John M. Scudder, late of Cincinnati; Dr. William F. Paine, author of Paine's Epitome of Medicine; Dr. Robert A. Hart of the University of Pa.; Prof. Laurence Johnson, M. D. Medical Department, University of New York; Prof. Edw. M. Hale, M. D., Professor of Materia Medica in the Hahnemann Medical College, Chicago, and many others as remedies for indigestion and dyspepsia, torpid liver as well as for bronchial, throat and lung affections, as will be seen from reading a little booklet recently compiled by Dr. R. V. Pierce, of Buffalo, N. Y., who will send the same on request, by postal card or letter, to any address, free. This little booklet tells of what Dr. Pierce's celebrated medicine are made, and gives the properties and uses of each an every ingredient entering into their composition. Write Dr. Pierce, as above and receive it by return post.

Queen's root, or Stillingia, is an ingredient enters into the "Golden Medical Discovery" highly recommended by several of the above mentioned authorities for the cure of chronic or lingering bronchial, throat and lung affections, public speaker's sore throat attended with hoarseness, dry rasping cough and kindred affections. Not only is Queen's root specific in its curative action in all these affections, but in "Golden Medical Discovery" it is greatly assisted by the combination with it of Golden Seal root, Stone root, Black Cherrybark and Bloodroot, with which it is blended in just the right proportion. Pure, triple-refined glycerine also greatly enhances the effectiveness of all these agents in the cure of chronic and lingering coughs, being a valuable demulcent, also antiseptic, and a nutritive of great value especially useful in all wasting diseases, as in incipient consumption and other scrofulous affections. "Golden Medical Discovery" is a sovereign remedy in all catarrhal affections whether affecting the nasal passages, the stomach, bowels or pelvic organs and the reason why will be learned by reading the little booklet noted above. Send for it now.

In chronic catarrh of the nasal passages, it is important that while taking the "Golden Medical Discovery" as the most effective constitutional treatment for this terrible distressing and most obstinate affection that the nasal passages should be cleansed two or three times a day by the free use of Dr. Sage's Catarrh Remedy, used according to the directions which accompany the same.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of the ingredients. The publication of the names of the ingredients on the wrapper of every bottle hereafter to be sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an "unknown remedy."

Every bottle of Dr. Pierce's Golden Medical Discovery bears the stamp of public approval. For the dealer to offer you something he claims is "just as good" is to insult your intelligence.

WANTS NAMES OF THE DEAD. SAVE COLLEGE COLLECTIONS.

SAN FRANCISCO, April 26.—Every effort is being made to ascertain the correct number of victims of the earthquake and fire and their identity not only in this city, but in other places where fatalities occurred. Captain Winn, assistant to the military secretary, requested the Associated Press last night to state that he desired all corners and others concerned who know of people who have perished in the earthquake or fire to send name, age and sex and any other data to him at Fort Mason, Cal. It is particularly desired to obtain names and places throughout the state outside of San Francisco and he requests that this be conspicuously announced in all newspapers.

Salvation Army Requests Cast-Off Clothing. If persons having cast-off garments, furniture or other articles for distribution among the poor, will telephone Oakland 4500 or send no ice by mail to Captain William J. Day, 120 Third Street, Oakland, the army's relief corps will call in any part of Berkeley, Piedmont, Fruitvale, Alameda or Oakland and visit for the things which are urgently needed.

BERKELEY, April 26.—Dr. A. L. Kroeber, secretary to the Department of Anthropology, which is located in the westernmost building of the Affiliated Colleges in San Francisco, reports that the anthropological collections of the University have been saved. The collections suffered much less than might have been anticipated. Greek vases and delicate specimens of priceless value escaped uninjured through wiring specially designed for protecting them from earthquakes. Fortunately this wiring had just been completed. Altogether specimens worth perhaps five thousand dollars have been more or less injured but after repairs are made the total loss will be about two thousand dollars, or less than one per cent of the total value of the collection. Of this loss at least half will be reproductions not original specimens. The entire museum force is at work in the work of repairing the damage.

UTAH WILL SEND DOCTORS. The Salt Lake County Medical Society has volunteered to send a corps of physicians and surgeons to act in any place in this State in which their services may be desired.

UNION MEN ARE MAY BE LIGHTS ORGANIZING TONIGHT

SAN FRANCISCO, April 26.—The Labor Council yesterday, at Franklin Hall, appointed a committee composed of J. J. Byrne, George W. Bell, A. J. Spencer, William Buckley, Charles Schilling, Edward Corpe, Miss Minnie Andrews, M. Shannon, Herman May and D. Schwartzing to co-operate with the Citizens General Relief Committee in relief work. Secretary McCabe was instructed to inform Mayor Schmitt of the action of the Council, and to offer him the assistance of the body in rebuilding the city.

A committee, composed of J. J. O'Neill, A. J. Gallagher, Richard Correll, Russell I. Wisler and James A. Wilson was appointed to express the sentiments of the Council in the present crisis, and its attitude on the subject of wage conditions and the rebuilding of San Francisco. The committee presented the following declaration, which was adopted by unanimous vote: To the people of San Francisco: The San Francisco Labor Council, on behalf of its 106 affiliated unions, pledges the earnest and willing cooperation of each and every member of these organizations in rebuilding of our city, and that this may be accomplished as expeditiously as possible and under conditions as nearly normal as practicable, we declare it to be the sense of this council that the wage scales of the various unions remain as before the fire, and recommend that the affiliated unions adopt stringent measures to enforce this measure.

"We recommend that jurisdiction between the various crafts and callings be established until normal conditions are restored. "We recommend that the affiliated unions establish headquarters as soon as possible, where members may register for employment. In order that those who desire their services may secure them with the least possible delay." Secretary McCabe was authorized to engage a meeting hall and headquarters for the Council, pending the rebuilding of the business districts.

Several delegates criticized the system of distributing the relief supplies, stating that some people were obtaining more than they needed, while some deserving families were not securing the relief required.

President R. Cornelius of the Street Carriers' Union announces that the executive board will meet tomorrow afternoon at 1129 Fillmore street to devise ways and means for helping needy members. All members who have lost their homes are requested to communicate with the board.

Butchers' Union, No. 116, will meet Sunday afternoon at 1 o'clock to assist the relief committee.

Stationary Firemen's Union, No. 86, will meet tomorrow at 2 p. m. at 1129 Tennessee street. The local retail clerks' unions have received a check from the International Union for \$1000 to be devoted to the relief of distressed members. The Master Plumbers' Association and Journeymen Plumbers' Union, No. 445, wish it understood that there are more than sufficient journeymen in this city at present for all reconstruction purposes, and desire plumbers in outside cities to remain away. Steam Laundry Workers' Union, No. 26 has been advised that four laun-

MAY BE LIGHTS KILLED BY EARTHQUAKE

SAN FRANCISCO, April 26.—The Dairywomen's Association has announced that it will furnish milk free to the relief organization until May 1st. San Francisco is ready for the resumption of electric lighting in three districts to-night, if the mayor will grant permission to turn on the current. It is expected that several car lines will be in operation before night. Fifteen planing mills escaped destruction out of about forty and the most of them will resume operation in a few days and turn out material for rebuilding.

MORE DEAD

WASHINGTON, April 26.—The following dispatch from General Greeley, dated San Francisco, yesterday, was received at the War Department today: "The following are names of dead not previously reported."

"Catherine Bong, John Berg (or Deed), Harry Chabro, A. B. Emerson, K. H. H. Herman Myers, Myrie (Japanese), Marie Harris, James Pulp, J. Rankin, Cicero Rifles, Lewis Robinson (negro) William Vail, George Walker, Young Won. "This does not include the grand total. Investigation proceeding regarding those injured. Hope to furnish quite complete report on 26th."

GOVERNOR SPARKS PRESENTS

GOVERNOR SPARKS OF NEVADA presented Governor John Sparks of Nevada called on Governor Pardee today and asked what he could do to aid stricken California. Governor Pardee thanked him for what Nevada had already contributed in the way of food and money to the relief fund and stores. The interview between the two States' executives concluded by the Nevadaan presenting to Governor Pardee a rich Mexican opal with thanks.

dries in the unburnt district of the city are ready to resume business as soon as permission is granted by the authorities. The laundries that will resume at once are the New Method, Seventeenth and Sanchez streets; Victor, Eighteenth and Bryant streets; Sanitary, Seventeenth and Folsom streets, and Independent, Nineteenth and Bryant streets.

To assist authorities in preventing chimneys from being used before inspection, the following changes in rules have been made: The fire warden will placard all buildings with warning that no chimneys are to be used until they have been inspected.

After such inspection has been made in case of chimneys, and found in good condition, Deputy Building Inspectors must post a copy of certificate of inspection on building immediately under new notice of the fire warden, stating what chimneys are in condition to use.

There may be some confusion in the matter of a few certificates issued during the last few days, and if any deputy building inspector neglects to post a copy of inspection as required, occupants of such buildings will gain time by notifying personally the deputy who made the inspection to post such notice, and it will also relieve the office of building inspector, which is already overcrowded with work.

The Salvation Army yesterday buried one of their pioneer officers in the person of Mrs. Edward Butler, who, as Adjutant Anna Allemann, lived for years in Oakland and held many important appointments in and about San Francisco. She and her husband were injured by the falling of their home at 812 Natoma street, San Francisco, and twenty-six hours later Mrs. Butler passed to her reward.

As Adjutant Anna Allemann she worked for years in the slums of San Francisco uplifting the fallen and helping the hopeless. She was also for a number of years matron of the Army's orphan asylum at Beulah.

The funeral was the first to be conducted in the regular way at Laurel Hill since the earthquake and the grave diggers who were entering the wages of unknown dead, left their graves to make ready for the funeral of Mrs. Butler.

The funeral was conducted by Colonel French, a prominent officer in the United States Army.

Mrs. Butler leaves besides her husband a mother and four sisters who are connected with the Salvation Army.

WANT LITTLE REFUGEES TO STUDY THEOSOPHY

Col. Fred G. Plummer, a representative of the Universal Brotherhood, the international headquarters of which are at Point Loma, in the southern part of the State, called on Governor Pardee this morning and stated that he desired to secure possession of one hundred and fifty children for whom he would provide a home at Point Loma. Plummer's offer was based upon a cablegram dated Santiago de Cuba, April 23 and signed by Katherine Tingley, president of the Universal Brotherhood. The age limit of the children was ten years. No grown people were to be taken. Quarters were to be provided for the children in the best village, Isle Thacker and a part of the pavilion at Point Loma.

Governor Pardee said that Plummer would have to deal in the matter with the sub-committee of the general relief committee which was caring for the children who are rendered destitute through the loss of their homes and in some instances, of their parents by the San Francisco fire and that none of the children could be taken whose parents were alive without the consent of the parents having first been obtained, and, in any event, the names of the children, their former residences, and future home were to be placed upon the records of the committee. The intention of Plummer and Katherine Tingley is to have the children in question raised as Theosophists.

A Badly Burned Girl. Or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Tekonsha, Mich., says: "I use it in my family for cuts, sores and all skin troubles, and find it perfect." Quickest cure known. Best healing salve made. Price 25c. Best Good Bros., drug stores, Twelfth and Washington streets and Seventh and Broadway.

2000 western grocers return dissatisfied customers money for coffee and tea—Bucklen's Best.

Rock Island Terminals

Rock Island Terminals in Kansas City, St. Louis and Chicago are conveniently located as separate connections and transfers.

Kansas City Union Station—Used by all the important lines entering that city.

St. Louis Union Station—Used by all lines entering St. Louis.

Chicago—La Salle Street Station; only one on the elevated railroad loop, and across the business center of the city.

You do well to consider your "loading place" when planning that Eastern trip.

One time table folder and map-detailed information promptly upon request.

THE LINDGREN-HICKS CO.

General Contractors

have opened temporary offices in the Fairmont Hotel, which can be reached from the California street side. This portion of the building was entirely untouched by fire, and we expect all of our office force and field superintendents to meet us there promptly.

We have about 4000 tons of structural steel, and a large amount of cement and other building materials under contract, which is available for new buildings, and we are prepared to take contracts for rapid erection of earthquake and fireproof buildings only.

Careful inspection of most of the large steel frame buildings has proven that no structural damage was caused by the earthquake, and that where injury has resulted from fire it can be clearly traced to bad fireproof construction. Wherever the steel has been properly protected by concrete there has been no structural injury whatever.

A personal examination has fortified our unshaken confidence in the stability of the best type of class "A" construction, and when capitalists have confirmed this conclusion from reports of their own experts, we expect that the business district of San Francisco will be rebuilt with all speed.

If it is correct that earthquake conditions can be provided for safely in the tall buildings, then our fire risks will be practically eliminated, since all business buildings will be only one type and no one will have any adjacent exposure.

There never was a time in the history of San Francisco when a properly constructed building offered such certain and profitable returns as it does today.

We have men and materials to undertake this type of work promptly and to complete it correctly.

Early contracts will secure the advantage of available material.

Architect G. A. WRIGHT

Late of the Schmelldell Building 604
Montgomery street, San Francisco
was one of the very few architects of
the city who saved the greater part
of his office equipment from the
flames. Among some of the more re-
cent work of this architect is the Bare
building on the south side of Market
street near Eighth costing \$130,000
the Whitcomb Block at Davis and Pa-
cific streets \$135,000 the W P Pul-
ler & Company warehouse occupying
an entire block surrounded by Green,
Battery, Front and Commerce streets.
The First Church of Christ (Scientist)
San Jose. Little or no damage was
done by the earthquake to these
buildings though some of them were
destroyed by the fire. Mr Wright's
Oakland offices are at the Union Sav-
ings Building Rooms 1114 and 1115.
Telephone Oakland 30. His ALA-
MEDA OFFICES ARE AT 1381
PARK STREET ROOMS 10, 11, 12
AND 13. TELEPHONE ALAMEDA
1388. The supervision of the construc-
tion of the Hayward building in San
Francisco was entrusted to Mr
Wright and it is interesting to note
that this building stands today prac-
tically undamaged.

The California School of Mechanical Arts

and the

'Wilmerding School of Industrial Arts

WILL NOT BE REOPENED
until August. Diplomas of graduation
and certificates of promotion will be
mailed in due season. On and after
Thursday, April 26, students can obtain
books and tools, and girls will be per-
mitted to use sewing room.

The Habit of a Gentleman

Dress ten men in the average ready-made suits and they will all look alike. Dress them again in Atterbury suits and each will betray marked individuality. The reason for this is that Atterbury clothes are hand-made, and nothing short of this method will give to men's wear the harmony which determines the ideal from the commonplace.

Atterbury System Label on every garment

TAXES NOT DELINQUENT DURING THE HOLIDAYS

That it is not necessary to pay taxes to prevent them from becoming delinquent as long as the Governor continues to make each day a holiday, is shown by the following opinion rendered by District Attorney Allen's office at the request of Tax Collector Barber:

Office of the District Attorney, Oakland, Cal., April 25, 1906.
James B. Barber, Esq., Tax Collector Alameda County.

Dear Sir: I am in receipt of the following communication from you: "Oakland, Cal., April 25, 1906. "John J. Allen, District Attorney. "Dear Sir: The second installment of taxes becomes delinquent on Monday, April 30th, 1906. In the event that said day should be duly appointed and declared a holiday by the Governor of the State of California, what effect would such an act have upon the delinquency of the taxes?"

"JAMES B. BARBER, "Tax Collector."

In reply I beg to advise you as follows:

Section 2756 of the Political Code provides as follows: "On the last Monday of November of each year at six o'clock p. m. all taxes then unpaid, except the last installment of the real property taxes, are delinquent, and thereafter the tax collector must collect for the use of the county or city and county, an addition of fifteen per cent thereon; provided that if they be not paid before the last Monday in April next succeeding, at six o'clock p. m., he shall collect an additional five per cent thereon. On the last Monday in April of each year at six o'clock p. m. all the unpaid portion of the remaining one-half of the taxes on all real property are delinquent, and thereafter the tax collector must collect for the use of the county or city and county, an addition of five per cent thereon; provided that the entire tax on any real property may be paid at the time the first installment, as above provided, is due and payable; and provided further that the taxes on all personal property unsecured by real property shall be due and payable immediately after the assessment of said personal property is made."

Section 19 of the Political Code provides: "Holidays, within the meaning of this code, are every Sunday, the first day of January, the twenty-second day of February, the thirtieth day of May, the fourth of July, the ninth day of September, the first Monday in September, the twenty-fifth day of December, every day on which an election is held throughout the State, and every day appointed by the President of the United States, or by the Governor of this State, for a public fast, thanksgiving, or holiday. If the first day of January, the twenty-second day of February, the thirtieth day of May, the fourth day of July, the ninth

day of September, or the twenty-fifth day of December fall upon a Sunday, the Monday following is a holiday." Political Code, section 12, provides: "Whenever any act of a secular nature other than work of necessity or mercy is appointed by law or contract to be performed upon a particular day, which day falls upon a holiday, such act may be performed upon the next business day, with the same effect as if it had been performed upon the day appointed (same provision Civil Code section 12) as Code of Civil Procedure, section 12.)

The matter of the extension of time on account of the last day upon which a certain act may be performed falling upon a holiday, has come before the Supreme Court of this State several times. It has never come before the Supreme Court in the matter of the pleadings, the time for the making of pleadings, the time for tax sales, and the time of payment on insurance policies. The rule laid down by the decisions in that section 12 of the Political Code above quoted, has the effect of allowing any act appointed by law to be performed upon a day which is a holiday to be performed upon the next business day.

I therefore beg to advise you that in the event of Monday, April 30, being duly declared a legal holiday, then the taxes will not become delinquent upon that day, and will not become delinquent until 6 o'clock p. m. of the first business day after said 30th day of April.

Respectfully submitted,
JOHN J. ALLEN,
District Attorney.
By EVERETT J. BROWN,
Deputy District Attorney.

REQUEST NAMES OF DISASTER'S VICTIMS.

The following dispatch was received by the Associated Press last night: Headquarters Pacific Division, Fort Mason, San Francisco, April 25.

"Associated Press, Oakland Cal: General Greely requests that you make conspicuous announcements in California papers asking all hospitals, coroners and others concerned to report immediately to Captain Winn, Fort Mason, Cal., the names and addresses, age and sex of all people known by them to have been killed by the earthquake or fire. It is particularly desired through the Associated Press to obtain the names in places outside of San Francisco."

"WINN, "Assistant Military Secretary."

SYMPATHY COMES FROM FAR TOKIO.

The following cablegram has been received by Governor Pardee: "Please accept our profound sympathy with sufferers from the great earthquake."

"MAYOR TOKIO."

Woman's Nature

Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. Book containing valuable information mailed free.

Is to love children, and no home can be completely happy without them, yet the ordeal through which the expectant mother must pass usually is so full of suffering, danger and fear that she looks forward to the critical hour with apprehension and dread. Mother's Friend, by its penetrating and soothing properties, allays nausea, nervousness, and all unpleasant feelings, and so prepares the system for the ordeal that she passes through the event safely and with but little suffering, as numbers have testified and said, "it is worth its weight in gold." \$1.00 per bottle of druggists. DEATH IN TEMBLOR

SAN FRANCISCO, April 26.—The earthquake yesterday afternoon caused the death of Mrs. Annie Whitaker, aged 25 years. Mrs. Whitaker was at work in the kitchen of her home on Shotwell street in the Mission district, when the shock came.

The chimney, which had been left in a tottering condition by the heavy quake last Wednesday, crashed through the roof upon the young woman and fractured her skull.

Her body was taken to the morgue at Portsmouth square and buried an hour later at Laurel Hill Cemetery.

S. P. CLERKS IN FEAR OF TOWER

The earthquake shock at 2:20 yesterday afternoon alarmed and drove from the ferry building across the bay every one of the forty or so of the Southern Pacific employees, many of whom declared they would not return until the big tower, which has been condemned, has been removed.

The company's force was dismissed for the day at 3:30 by Chief Clerk Rising, who apparently shared the general belief that further work in the building was unsafe.

The clerks are stationed on the floor directly beneath the huge tower and they declare that if it should fall it would smash its great weight through their ceiling as though the latter were so much pasteboard, making their end certain.

MANY AIDED AT ELKS TENT CITY.

The Elks' tent city at Adams' Point is being well provided for, and generous donations of food and clothing have been sent by Oakland people for the ones in need.

The Elks have taken the large house at the corner of Webster and Twenty-second streets to shelter women and children who are suffering from illness, and the new accommodation with the hospital tents already in camp makes a complete system of caring for the sick.

Among those who have assisted the Elks in their good work are:

Mrs. J. D. Sproul, Mrs. Kersten, Mrs. W. T. Baker, Mrs. J. D. Richardson, Mrs. Max Taft, Mrs. Bernard Miller, H. G. Schacke, Mrs. Frank Ayer, Miss Stetson, G. D. Fairchild, Mrs. David Sinclair, Mrs. C. M. Cooper, Mrs. Goodall, Mrs. George Gross, Mrs. J. Loran Pease, Mrs. Jack Rooney, St. Paul's church, Mrs. Soule, Mrs. Bacon, Mrs. H. G. Wells, Wednesday Afternoon Club, Mrs. Clarence Wetmore, Mrs. Wm. B. Pringle, Mrs. H. W. Lytle, Mrs. William Blair, Mrs. English, Mrs. George Perkins, Mrs. Gilliland, Mrs. A. F. Baumgartner, Mrs. J. H. Wilson, Mrs. Al Wood, Mrs. Frank Wilson, Mrs. Hartford, Mrs. W. T. Baker, Mrs. Etta Gale, George Bush, T. C. H. Butler, Mrs. Spreckels, Mrs. Schumate, Miss Merriam, Mrs. A. L. Schleuter, Mrs. Richardson of Needlework Guild, Mrs. C. L. Hodgman, Captain D. Wells, Mrs. Ayers, Mrs. Humphrey, Hill Club, Mrs. Wickman, Mrs. Jack Matthews, E. A. Herlin, Mrs. Wright, Mrs. J. Holman, Alex. Stewart, Court Sadl Carnot, F. of A. Mrs. Houyer, Paul Carroll, Miss Gross, Hillside Club, Mrs. George Carpenter, Mrs. Marden, Miss M. E. Walker, Fred Seuberg, Mrs. Kurtz, Joe Kelly, Mrs. W. D. Smith, Mrs. J. D. Walker, Mrs. E. M. Clement, Mrs. Charles Cotton, Mrs. Clarence Crowell, Mrs. MacNichol, Mrs. P. H. Du Bois, Mrs. E. H. Hatt, Mrs. John Anderson, Mrs. Upton, Mrs. Seuberg, Mrs. Comfort, Mrs. W. E. Smith, Mrs. C. G. Dodge, Mrs. W. W. Blair, Mrs. G. Gray, Miss Laving, Mrs. George Blething, Miss Evans, Mrs. Ralph Stocking.

LEGAL HOLIDAYS AND THEIR EFFECT.

Attorney-General Webb, when interviewed as regards the effect of the present legal holidays, said:

"There is nothing in the continuance of the present series of holidays which prevents the voluntary resumption of commercial and industrial business."

"Obligations may be met and contracts performed with entire security. These holidays are intended to enable banks and other institutions affected by the great losses which the State has sustained, to maintain their status unimpeded and to give them the required time to make all necessary arrangements to meet their obligations at the termination of the holiday period."

"During the holidays, one may not be legally compelled to make or perform a contract, but everyone is at liberty to make new or perform existing contracts."

"The transaction of judicial business is not wholly stayed. Work which falls upon a legal holiday may be performed upon the next business day with the same effect as if it had been performed upon the day appointed."

"Let every person, so circumstanced as to continue his business, those not so circumstanced, can use these holidays in preparing to resume business after the holidays."

DEATHS REPORTED AT HEALTH OFFICE.

SAN FRANCISCO, April 26.—The following deaths have been reported at the Health Office: Violet Dunning, 437 Edinburgh street; John Murtha, 737 Ashbury street; Julia Ward, 120 Langston street; Cecelia Peubister, Joseph Solomon, 164 Sanchez street; Henry Manders, 535 Andover street; three unidentified males, one unidentified female, Lulu Montgomery, Presidio; William H. Goucher, 1099 Ellis street; Lena Crowder, Gustav O. William Guy, Margaret Lynch, Patrick Flarrey, Frederick Temple, child, Marie Paris, Alma C. Esby, 324 Third avenue; three unidentified burned; Bridget Salmon, 101 Hampshire street; William H. Beck, Valencia Hotel; Joseph Lyons, 34 Page street; Edith McMillan, Julia Mahoney, 1205 Clement street; Hermann

AMBITION
To give the best possible cigar value for the price has been and is the great ambition of the American Cigar Co. The "A" (Triangle A) on the box marks the realization of this ambition through wonderful improvements in tobacco culture. An excellent "A" brand is the

RENOWN
CIGAR—FIVE CENTS

In great new "stemmeries" where the humidity and temperature of the Cuban climate are duplicated, all the finest properties of the leaf are brought out and all original harshness is removed. Here also *real blending* is accomplished by new and exclusive processes through which the characteristic qualities of the selected leaf are brought together in mellow harmony *before manufacture*, which is decidedly opposed to the old-time hit-or-miss method of mixing on the bench *during manufacture*. The blended richness and mellow fragrance in every puff of the "Renown" proves the success of these improved processes and gives to the smoker honest smoking value.

Trade supplied by S. BACHMAN, San Francisco, Cal. Manufactured by AMERICAN CIGAR COMPANY

Meyer and Emma Kettner.
The following deaths were reported by the authorities of the German Hospital as having occurred in that institution: Berghild Knutsen, 29 Case avenue; Emilie Frederick Beauregard, Mary Lapp, 1332 Sanchez; Mary Jane Mehrin, 1375 Waller, one unidentified man, a watchmaker, possessing a watch numbered 7,195,682, John A. Pierson, John Colly, Mary Freeman and Benjamin Scharteau.
The dead taken from the German

Hospital have been buried by the Mission Undertaking Company, of 3609 Army street, free of charge.

For Over Fifty Years
Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25 cents.

HARTFORD COMPANIES ARE NOT WORRIED

HARTFORD, Conn., April 26.—That the several Hartford fire insurance companies are not worried over the losses they will be compelled to pay resulting from the San Francisco fire was made evident yesterday in statements by President William B. Clark of the Aetna Fire Insurance Company

and John D. Brown of the Connecticut Fire Insurance Company. They insisted that the Hartford companies were all right.

Most people are patient when there is nothing at stake.

Mistake of Their Lives.
We sell new, clean furniture. Some people are not aware of it, but it is a fact. Our prices are 40 cents less on the dollar. See us at corner story, 11th and Franklin streets. H. Schellhaus.
